DISCUSSION OF RESULTS

Directions: This portion of the document is designed to provide context for results, to discuss individual instructors' input on whether or not the methods they are using are effective.

Some questions to consider: is the assessment process for the outcome you're assessing sufficiently robust?

Are enough sections of the course being assessed to represent an accurate portrayal of program success?

If the targets have been met, might they be raised in the future?

If targets are consistently exceeded, might the assignment be made more demanding to challenge students effectively?

CITA 204 – Teamwork

Findings for Understand and apply SDLC methodologies to develop the information system

Summary of Findings: The class average is 88.7%

Results :   Target Achievement: Exceeded

Recommendations: I am very pleased with the results

Reflections/Notes: All project groups have demonstrated satisfactory technical skills in developing the information system development project.

CITA 204 – Teamwork

Findings for Employ project management and/or team leadership skills in planning, coordinating, and ensuring quality of the assigned tasks.

Summary of Findings: The class average is 88.7%

Results :   Target Achievement: Exceeded

Recommendations: I am very pleased with the results
Reflections/Notes: The class did very well regardless of COVID-19 impact.

CITA 480 – Ethics

Findings for Internship presentation

Summary of Findings: All student interns received a C or above grade.

Results :   Target Achievement: Exceeded

Recommendations: I am very pleased with the result.

Reflections/Notes: All student interns did very well during their internship

DATA DRIVEN DECISIONS

Directions: What will you change as a result of the data?

If targets are not met: best practices suggest we make changes to course content, rubrics, or the assessment process, and spend the next cycle year reviewing the courses for which we didn't meet targets *in addition to* the PSLOs up for that cycle year. If there are problems, we want to catch them quickly. So, if targets are not met, what will be changed, and what is the timeline for addressing the issue?

If targets are met: Many people are under the impression that as long as targets are met, then there is no need to make changes. As evidenced in the directions in the previous section, we can

still make changes. Perhaps a new target would be appropriate? Perhaps the assignment should be more challenging for students? Perhaps a more robust measurement of the PSLO or ISLO could be made?

RESOURCE ALLOCATION REQUESTS

RESOURCE ALLOCATION REQUEST FORM

Guidelines for Request:
1. Please ensure the request is linked to learning outcomes (course, program, and/or institutional)
2. Complete this form and send it to your academic dean for review and potential consideration at Provost's Cabinet.

PROPOSAL INFORMATION:
Applicant's Name: _____
Program Title: _____

a. Please describe the request (what is the problem that the request is trying to solve?)

b. Describe and or list the resource(s) you hope to acquire as a result of this request. (For instance, are you looking for course materials, additional instructors, etc.? What is the problem that this request is trying to solve?)

c. How is the request linked to learning outcomes assessment?

d. Please include any data that will help support this request (learning outcomes data)

e. Describe briefly your follow-up assessment (currently we assess on a three-year cycle, but learning outcomes that are addressed with resource allocation should be assessed again as soon as possible to determine the viability and sustainability of resource allocation)

f. Please include any alternative sources of funding you have considered for this initiative (grants, different pools of money on campus, etc.)

g. Approximately how many students do you anticipate will be served by this request each Academic year?

h. Total Amount Requested: _____

SUGGESTIONS FOR IMPROVING THE ASSESSMENT PROCESS

Directions: some proposed areas of improvement might include: collection of data, distribution of data, what kinds of data is included/omitted, timelines, when or how work is completed, delegation of responsibilities, etc.
