

## Alexis Ploutz '27

Jefferson, New York

My name is Alexis Ploutz, and I am a sophomore in the Funeral Services Administration program here at SUNY Canton. I am also minoring in Sociology. I chose to come to SUNY Canton because it is the only college in New York State that offers a bachelor's degree in funeral services. This incredible program truly cares about making you the best funeral director you can be. I also chose to come to Canton because of its size, as it allows you to make friends, form study groups, and access one-on-one time with professors and advisors as needed. I also mentor students in the Academic Recovery Center on campus and am a Mortuary Science Association club member.

This is my 2nd year working as a student ambassador. I love my job because I take pride in SUNY Canton and love showing prospective students how amazing their next 2-4 years can be here. When I am not focused on academics or working, I enjoy making pottery, watching scare movies, and spending time with my cat, Rigby.

**GREAT MAJORS,  
GREAT CAREERS.**
