

Jaden Muniz '26

Bronx, NY

Hello! My name is Jaden Muniz, and I am currently a junior in Veterinary Science Technology (AAS) and the Veterinary Service Administration (BBA) programs. I am from the Bronx, and I chose to come to SUNY Canton for freedom, independence, and growth, as well as the Vet Tech programs offered here. I plan on pursuing a higher education in Veterinary Medicine, whether that's becoming a Specialized Veterinary Licensed Technician in Emergency Care or going farther and obtaining a Doctorate in Veterinary Medicine. I am forever grateful for the Vet Tech program here, as I am able to learn an immense amount of information and get a lot of hands-on experience from the Doctor's and Vet Tech's that teach here.

I am currently President of the Gamma Sigma Zeta fraternity, where we push our members to display the ambition, drive, confidence, and the commitment needed to excel in all of their future endeavors. We are the example of what happens when an organization treats its members with dignity and respect. We focus on giving back to our community both on and off campus, hosting events for students to engage in, and fundraising for programs, such as the Wounded Warrior Project. I am also a Student Ambassador, work in the Counseling Center, and was previously Vice President of B2B. SUNY Canton has offered me a multitude of opportunities for me to grow and learn.

Outside of academics, I enjoy staying active at the gym, spending quality time with friends on campus, and diving into a good book. I also love playing video games to unwind and exploring nature, which helps me recharge and stay inspired.

GREAT MAJORS,
GREAT CAREERS.
